

TAKING IMAGING TECHNOLOGY TO THE EDGE

Your Single Point Solution

Comprehensive, Integrated, Complete

For leading edge, integrated digital orthopedic imaging, all roads lead to Viztek. Combining advanced software and hardware, backed by world-class training and support, Viztek is the comprehensive source for imaging solutions.

Specialized Orthopedic Workflow

Created to meet your specialized needs, Opal-ORTHO delivers a full range of specialized functionality, from Cobb Angle and Distance Measurements to pre-operative templating.

Unleash the Power of Opal-ORTHO

Viztek's advanced Opal-ORTHO is a single database, fully Web-enabled, Microsoft .NET solution that streamlines workflow and access to patient information. It provides advanced functionality and connectivity, including ultra-fast image streaming at an affordable price.

For superior performance within the reach of every orthopedic site, make Viztek your digital destination. Single source... Single solution... Singular vision of orthopedic digital imaging.
