Viztek & 20/20 Imaging Customers,

Microsoft™ has made a public announcement regarding a security flaw in the Microsoft Secure Channel (Schannel) and has released **Windows Security Patch KB299261**.

This security update resolves a privately reported vulnerability in the Microsoft Secure Channel (Schannel) security package in Windows.

The vulnerability could allow remote code execution if an attacker sends specially crafted packets to a Windows server. This security update is rated Critical for all supported releases of Microsoft Windows.

For More information please see Microsoft's Support webpage at:
<https://support.microsoft.com/kb/2992611>

What should I do next?

Please Contact your IT department for additional instructions.

Best regards,

Stephen Hathaway
Vice President of Operations
Viztek, LLC
