

TAKING IMAGING TECHNOLOGY TO THE EDGE

Your Single Point Solution

Comprehensive, Integrated, Complete

For leading edge, integrated digital imaging, all roads lead to Viztek. Combining advanced software and hardware, backed by world-class training and support, Viztek is the comprehensive source for imaging solutions.

1,000 Installations and Counting

Powerful and proven, Viztek solutions are utilized in over 1000 installations worldwide. Reliable and resilient, they have measured up to the rigors of global application, including demanding forward deployments for the U.S. military.

Unleash the Power of Opal-RAD PACS and RIS

Viztek's flagship Opal-RAD PACS and RIS application suite is a single database, fully Web-enabled, Microsoft .NET solution that streamlines workflow and ready access to patient information. Opal-RAD provides advanced functionality and connectivity, including ultra-fast image streaming at an affordable price.

For superior performance within the reach of every imaging site, make Viztek your digital destination... Single source... Single solution... Singular vision of digital imaging.
