# DRIVE YOUR WORKFLOW

TURNKEY SOLUTIONS FOR POWERFUL IMAGE MANAGEMENT

Join the Viztek Racing Team at RSNA booth # 2175

Handles Like a Fine-Tuned Machine

Fast, Powerful, Complete

Shift your medical imaging workflow into high gear with Viztek's advanced digital solutions. Combining market-leading software and hardware, complemented by in-depth training and support, Viztek is the key to comprehensive, fully integrated digital image management . . . with all the options and features you'll ever need.

High-Performance Opal-RAD PACS and RIS

Our Opal-RAD PACS and RIS suite is a Web-enabled, single database, Microsoft .NET application that handles your data smoothly, quickly and efficiently. Like a well-oiled machine, Viztek solutions accelerate access to patient images and information. With advanced functionality, rapid anytime, anywhere image streaming, and affordable price, our high-mileage solutions are the choice for every imaging site — large or small.

High Mileage, Road-Tested

Today, Viztek technology is proving its superior performance in more than 1000 sites worldwide, including demanding forward deployments of the U.S. military. Jumpstart your imaging workflow with our state-of-the-art technology at an affordable price. Test drive Viztek today.
